Mr. Stiles – Digital Photo

Summer 2026

Photo Theme Project - Due: Tuesday, 7/7/26.

Photograph a specific subject of your choice in depth.

Give it a visual consistency and try to create your own personal visual style in showing your subject.

Attach 10 photos for this on Teams. You may also change photos in Photoshop! Grades will be made primarily on demonstrated effort (the amount & quality of photographs shot).

Each student is to choose a particular subject theme to photograph (it is open to almost all subject matter of the student's choosing.)

Students are expected to create a visual style of their own in this series of photos. A visual link or thread that is consistent throughout this photo series, which makes it their own. Some examples of visual elements would be “all saturated color or all sepia tones or two toned, direct lighting or soft lighting or flash lighting, low contrast or high contrast, wide angle or telephoto lens, shot from above or below. Also consider Photoshop manipulations, etc.

It is expected that this “style” will take some time and lots of change and experimentation, if the style is clear and defined enough, the subject matter need not be as specific, but it may be easier to make it consistent through subject matter at first.

There are no mistakes, just experiment as much as possible until you find what you like most, then do lots more of it.

**Due: Tuesday, 7/7/26. -Value 100 Points for Photo
1 Students**
